An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

*Specification (replace page 7, line 4 with)*

Figure 5 TABLE I shows an enumeration of the valid actions for the upgrade kit items, such as

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest the claimed invention. Specifically, the prior art of record fails to teach or suggest singly or in properly motivated combination a software upgrade method determining not up-to-date components to upgrade, including building and later downloading upgrade kits from a table of contents from a database to upgrade each component and invoking an upgrade wizard for that kit such that the wizard keeps track of the upgrade progress and if an error is detected during the upgrade, automatically rolling back the changes and restoring the client computer to a pre-upgrade state, as recited in independent claims 53 and 58.

The <sup>closest</sup> prior art of record, **Cyber Media**, disclosed self-contained upgrade kits. However, **Cyber Media** failed to disclose the independent claims as recited, including if an error is detected during the upgrade, automatically rolling back the changes and restoring the client computer to a pre-upgrade state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
